Part B. for

SUBJECT.

Permission to place at the disposal of the Chief Engineer during 1904-05 so much of the sanctioned amount for restoring the bridge on the 8/7 mile on the Chitaldrug Road Chellakere Road as may not be worked out during 1903-04

Subd to the Councillor

Please see the Dewans remarks on the draft. In view of those remarks think we may either simply say "Recorded" the Order, or say—

Recorded with the observation that application may be made by the Chief Engineer during the next official year for such portion of the grant as is not utilized during the current year.

As there is no separate Budget for "Local Funds General," no orders can be given now for a provision being made for next year

L Chandrasekhara

There being no Budget for L. F. G., & until the direction proposed by me is not unreasonable. The Estimate has been sanctioned, & this means the amount thereof has become from L. F. G. — & the whole of it cannot be worked out this year. What remains has to be placed at the Chief Engineer's disposal next year. An application upon from the Chief Engr.

Good — i am necessary
formality — If however Rule 9
is considered indispensable
(~~but~~ I don't think so) the
wording of the Order may be
changed in the manner suggested
by the Secy. I don't see that
the Dewan really wants any
alteration to be made for
he has been pleased to
observe "But the direction is
permissible I have no
objection". I think the order
as already framed by me may do.
